### **BEST PRACTICE**

**Title of the Practice:** **Imparting universal values among college students.**

**Objectives of the Practice:**

At present every person pursues self-interests relentlessly, through this practice the institution recognizes the need for universal values like promotion of truth, selflessness, the social and NSS departments of college is working with this goal.

**Context:**

The social and NSS department of institution inculcates among the students.

Developing “Not Me, but you” mind and soul for promotion of universal values. Try to help others

To stay in the premises of truthfulness.

To do academic and emotional stress by tapping their inner sources of strength. To develop always positive attitude)

**The practice:**

The cell has organized the following activities.

Organized moral value based class on first week of July.

Students counseling session imparting moral values held on second week of September.

A guest lecture organized on special day to understand moral and universal values by various National social workers on second week of January.

Vote awareness in democracy, programme for healthy democratic institution held on last week of February.

The girl students counseled on the occasion of universal women's day.

Celebration of National festivals in college campus, impart integrity among students. A students counseling session were held on last week of April.

**Evidence of Success:**

The students taking interest in this practice and they attended regularly taking interest in this practice. They are interestingly attending these classes despite their packed schedule of usual classes.

**Problem encountered:**

To conduct the counseling session required separate and adequate room with infrastructural facilities.

Due to shortage of manpower Public administration department faculty taking these class, needed sufficient faculties.

**Resources required:**

The adequate infrastructural bottlenecks and more manpower will help to strengthen this practice further.

### **BEST PRACTICE**

Title: Social Awareness Programme Objectives: **To motivate the students for social awareness and responsibilities.**

1. Motivate the students for the social welfare involvement.
2. To make the students skilled and knowledgeable.
3. To train the students to solve the social issues or problems.
4. To make the students responsible citizens and help in the Nation building.

#### **Context:**

Social welfare through the community work is our prime motto. In the modern age so many social evils, environmental issues, gender discriminations, caste discriminations, social exploitation, lack of social responsibilities, voting awareness, human right awareness, superstitions, social crimes, pollution, global warming, deforestation, draught, etc. threaten us. Through the class lectures, guest lectures and through various student-oriented activities we try to solve such types of social, political and environmental issues. These issues adversely affect human life. So, it is necessary to train the students to search out the solutions and solve the problems.

#### **The practice:**

The Nation building through the medium of community work is one of the objectives. All the faculties do the social awareness through their lectures. Even we organized guest lectures and various student-oriented activities through which we stress on the social awareness in the students about the current global, National, environmental, social and political issues. We train the students to face the natural calamities, social problems and solve them. The college arranges the significant activities such as:

1. Tree plantation.
2. Cleanliness drive.
3. Blood donation.
4. Street plays and rallies on social issues like Aids awareness, voting awareness, gender sensitization, education for all, dowry system, global warming, road safety, etc.
5. Guest lecturers' organization.
6. Plantation in the neighboring villages.
7. Celebration of the birth and death anniversaries of the National heroes.
8. Celebration of the National festivals.
9. Celebration of the various days and the cultural activities.

**Evidences of success:**

Through the above activity we create the social awareness in the students. We find its positive effects in the students as well as the society. Even some people came and praised our social awareness activities. Our students create awareness in the society in which they live and inform us about its positive effects as well as the problems they faced in its implementation. Day by day we find its fruitfulness.

**Problems:**

1. It is not easy to convince all the people on all the problems, it needs lot of efforts.
2. It is difficult to involve all the people.
3. Need of more budget to organize various activities.
4. Need of more orientation.
